CampKIDS Bursary Application

Each application is considered on an individual family basis. The CampKIDS committee meets frequently to review applications. References will be contacted during this review.

The intention of the CampKIDS fund is to make it possible for as many children to have a summer camp experience. For this reason, the amount of bursary for each individual camper will not normally exceed 50% of the registration fee for one camp session.

Once decisions have been made, families will be notified by the Registrar and invited to complete the registration process. Arrangement to pay outstanding fees can be made at this time.
